

Innova

Unrivalled skin-soft comfort technology

The Innova CPAP masks give unsurpassed facial comfort and skin protection. They are designed to rest lightly on the face. AIR^ogel gently protects the skin and the bridge of the nose to minimise necrosis and other irritations.

- Available as a nasal or full face mask
- Patented AIR^ogel cushion with Advanced Cushion Technology (ACT), for maximum comfort and an effective seal
- 'Touchless' Spacebar eliminates contact with the forehead, whilst retaining stability
- Active Headgear Connector allows an optimum fit, whilst giving the user freedom to move around in the night
- Masks available in four sizes; S, SmallPlus (nasal only), M and L.

D100

Great benefits for less...

The D100 series CPAP masks from DeVilbiss Healthcare offer cost effective flexibility and comfort. They feature a moulded silicone cushion and are lightweight and comfortable to wear.

- Available as a nasal mask (D100N) or a full face mask (D100F)
- Silicone cushions available in three sizes; S, M and L
- Three sizes of forehead pad included with every mask for maximum comfort
- Fully adjustable headgear
- Easy to clean and maintain
- Cost effective flexibility and comfort

EasyFitLite

A good night's sleep...

A well fitted and comfortable mask is an important part in the success of CPAP therapy adherence. An ill-fitting mask can lead to facial indentations, sores and shortened therapy time.

Achieving an optimal seal that is comfortable for the user is the main aim when choosing and fitting a mask. This in turn enables effective CPAP therapy.

The DeVilbiss range of CPAP masks provides the user with a variety of different types of nasal and full face mask.

Effortless sophistication and quality

The EasyFit Lite nasal mask is elegantly simple, yet highly sophisticated. Its smart design makes it incredibly easy to assemble and quickly obtain a great fit.

The silicone cushion design was created by utilising computer analyses of facial characteristics from 50,000 individuals globally to achieve optimum comfort and a superior seal.

No forehead pad:
eliminating pressure points on the skin

Whisper-quiet exhalation system:
for quieter airflow

Unique ball-and-socket joint:
allowing unsurpassed freedom of movement

Simplistic design: easy to assemble, adjust and maintain

Superior seal: providing a snug and comfortable fit

Available in three sizes:
S, M and L
