## CPAP MASKS

The D100 series CPAP masks offer **comfort, durability and simplicity for effective CPAP therapy whilst remaining cost-effective for both patients and providers alike.**

### Features and Benefits

- Available as a nasal mask (D100N) or a full face mask (D100F).
- Choose from three sizes of silicone cushion; S, M and L.
- Three sizes of forehead pad included with every mask for maximum comfort.
- Fully adjustable headgear.
- 360° swivel for optimum tubing positioning.
- Easy to clean and maintain.
- Latex free.

Available in both a nasal and full face design, the D100 masks feature a moulded silicone cushion and are lightweight, durable and comfortable to wear.

The D100N nasal mask and D100F full face mask are available with three sizes of cushion to fit most profiles. The D100 series headgear makes the mask simple to fit and can be easily adjusted to achieve an effective seal, leading to improved patient therapy adherence.

The tubing attachment has a 360° swivel which allows the user to adjust the tubing according to their preferred sleeping position.

The D100 series CPAP masks from DeVilbiss Healthcare provide users with a full range of features and exceptional value.
